Judge Dickerson seems to have everything his own way in running for district judge in Arapahoe county. This is the year that a good reputation pays in politics.

The presence of the street cars on the street yesterday created quite a sensation. Tejon now has a metropolitan look. It is to be hoped that the track will soon be laid connecting us with Colorado City. There is no doubt but that it would pay from the start. It would be a mutual help to the two towns.

The people of London will now be at a loss to know how to amuse themselves for a while, the "Wild West" show having closed its engagement there on Monday night. The success which the Hon. Mr. Cody's show has attained in London is simply phenomenal, and is in a great measure due to the prevailing English belief that it is a faithful portraiture of life in the "far west."

The annual report of Governor Swineford of Alaska has been submitted to the secretary of the interior. The value of taxable property in the territory according to it is $10,000,000. He urges congress to pass such measures as will give encouragement to the settlement of public lands in the territory. He states in his report that a wide-spread ignorance exists as to the agricultural possibilities of Alaska. Recent experiments he says have been made which leave no room for doubt that all the crops with the exception of corn can be grown to perfection in many sections of the territory.

Several of the leading Protestant divines of New York city have organized a movement to oppose the scheme of what is known as the "personal liberty party." This latter party proposes to bring about the opening of all saloons on the Sabbath in the large cities of New York. They place the latter institutions on a level with museums, art galleries, places of amusement etc., and demand that if these are kept open on the Sabbath the saloon keepers should also be allowed to keep open their places of business on that day. The sentiment of the respectable element in New York is against this, and while they offer little opposition to the opening of museums and academies of arts and sciences, they will strenuously oppose the throwing open of saloons. The organization of this movement is none too soon, for already the personal liberty party has obtained a strong foothold in some of the municipal corporations of New York.

[illegible] the time for the election of [illegible] the less is heard [illegible] George [illegible] party. The very few lines of their score seem to be of Mr. George as united. The refusal [illegible] to ignore [illegible] record will cost the cause convention votes. The candidate party 16,000 party, since the exasperation George's expressed many radical and old have views, which is surely [illegible] support of many honest and [illegible] working men. From present [illegible] ances the labor vote will not [illegible] of a ticket in the election, though at one time it was boldly asserted that it would cost one of the parties 100,000 votes. The more Mr. George's theories of land ownership are studied by honest and thoughtful men the less practicable do they appear as far as this country is concerned.

The present contest over the Irish question is based on some underlying principles of constitutional liberty. The plea of the conservative element has been that the unity of the empire must be maintained and that Ireland should have the same representation in the general government that England and Scotland have. The west of Ireland question has been especially in Ireland and hence the conditions are different there from what they are in Parliament. It is true that the Irish vote has been practically solid, but the holding of meetings for Irish speakers has been prohibited. But the proclamation of the Land league was for the entire [illegible] and the refusal to hold such [illegible] public meeting in England as in Ireland yet we have [illegible] records. Mr. Bright an English member of parliament was [illegible] for attempting to speak at a public meeting in Ireland, while Lord Spen[illegible]
